

# Memorandum

**To: Chairman and Commissioners**

**Date: March 11-12, 2009**

**From: John Barna**

**File No:  
Book Item 4.3  
Information**

**Ref: PROPOSITION 1B STATE-LOCAL PARTNERSHIP PROGRAM**

## **SUMMARY:**

Proposition 1B, passed in November 2006, authorized \$1 billion for the State-Local Partnership Program (SLPP). The program is split into two sub-programs – a formula program to match local sales tax, property tax and/or bridge tolls (95%) and a competitive program to match local uniform developer fees (5%). The Legislature appropriated \$200 million in Fiscal Year (FY) 2008-09 for the first cycle of this program, and the Commission is required by statute to adopt a program and make the first allocations by April 2009.

The Commission adopted SLPP Guidelines in December 2008. These guidelines require applications for the first cycle (FY 2008-09) be submitted no later than February 17, 2009.

Commission staff has received 54 project applications for the first cycle, with 18 for the formula program totaling \$94,571,000 and 36 for the competitive program totaling \$23,882,273. An additional ~~four~~ **five** projects were submitted by Los Angeles County Metropolitan Transportation Authority that would use future formula funds, and the four agencies requesting funds for the BART Warm Springs Extension project also would use future formula funds for that project. Many of the projects submitted for the competitive funds would not be ready for construction until 2010 or later and should be considered for future cycles rather than this first cycle. The projects are shown on the attached lists, with projects submitted for the competitive program listed in order of construction start date.

Staff expects to be able to bring a proposed program of projects for adoption by the Commission in April 2009. The Commission may decide, however, to defer adopting a program due to the lack of bond fund availability. The appropriated funds would remain available for programming in a future cycle.

## **BACKGROUND:**

The Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006, approved by the voters as Proposition 1B on November 7, 2006, authorized \$1 billion to be deposited in the State-Local Partnership Program (SLPP) Account to be available, upon appropriation by the Legislature, for allocation by the California Transportation Commission over a five-year period to eligible transportation projects nominated by an applicant transportation agency.

In 2008, the Legislature enacted implementing legislation (AB 268) to add Article 11 (commencing with Section 8879.66) to Chapter 12.491 of Division 1 of Title 2 of the Government Code. This defines the program, eligibility of applicants, projects and matching funds.
